SHIVAA JEWELS

JAYAL · RAJASTHAN

SHIVAA BLACK

Six pages, in my words.

I am Shivaa. This little book is everything I would tell you at the counter — and nothing I would not.

A CARD · A LITTLE SILVER · TWENTY PERCENT OFF THE CRAFT

No. 0142 / 0500

Twenty percent, on the craft alone

A piece of jewellery is four things: the metal, the stones, the making, and the tax. I take something off one of them.

> I reduce the making charges. Never the gold. The gold you pay for is the gold you carry home.

What the card is

- \+ 20 % off making charges, on every Shivaa piece
- \+ Six months from the day it is issued
- \+ Free to renew, as often as you like
- \+ Bound to your verified mobile number
- \+ Applied by itself at checkout

What it is not

- x Not 20 % off the price of the jewellery
- x Not a discount on gold or silver
- x Not a loan, an EMI or a credit card
- x Not for another person's number
- x Not a reason to buy what you did not want

This is the whole arithmetic

Metal, at the day's rate	unchanged
Making charges	10,000
Shivaa Black takes 20 % of that	– 2,000
Stones · GST · delivery	unchanged
You pay for the making	8,000

02 THE APP

Eight things, in your hand

> Everything you used to have to ask at the counter is in the app — at midnight, from another city, without calling anyone.

01 **Today's rate**
Gold and silver, and where the number came from.

02 **The shop**
Every piece, its making charge written separately.

03 **Swarna Nidhi**
11 + 1: eleven months you, the twelfth me.

04 **Certificates**
Purity and price, per order. Save or print.

05 **My bills**
In-store bills in your account. View, download.

06 **Track**
Insured, seal-checked, OTP-verified at the door.

07 **Ring size**
Measured at home, against a ring you own.

08 **Care & buyback**
Lifetime care, and buyback on the pure gold.

Free. No subscription, no advertising, and your number is not sold.

Why it does not feel like a website

> I did not trust my own eyes on this one. I measured it, then I printed the numbers.

123 0 — Animation frames a second on a page that is just sitting there. Two loops used to run forever; now they sleep.

58 1 — Stylesheets blocking the first screen, now one bundle of 70 layers. The page arrives sooner.

0 — Video bytes fetched before you scroll. The films wake only when you reach them.

2 1 — Layout reads per ten pointer moves. One delegated engine, one cached rect per visit.

1 — Motion owner per navigation. A page change slides; it does not flash white.

0 — Timers that rebuild the page while you read. Your thumb stays where it was.

Measured on the real page in a test browser. Where I print a before and an after, I counted both.

Three steps, then it is done

1 Scan

The code on the back of this book, or shivaa.in.

2 Sign in

The number this card was issued to. Six digits by SMS. No password.

3 See your card

Same number as the plastic. The discount now applies itself.

Nothing to print, nothing to carry. The plastic is a keepsake; the card in the app is the one that gives the discount.

> “ If you change your mobile number, tell me at the counter before you change it. The card follows you.

Write your date here

The certificate in your box carries the same date as the app. The app cannot be lost; paper can.

day / month / year

Come back with the box.

Bring the card, this book, and — if you kept it — the little silver. First cleaning is free, every visit, for life.
